For the last month or six weeks the entire press of Cincinnati has been constantly engaged in placing itself upon a war footing, and there is, perhaps, no power on the face of the earth that is to-day so thoroughly prepared for a great conflict of arms. But the Gazette shows an indication of becoming sick of the everlasting smell of gunpowder and war-paint. It evi. tion of becoming sick of the everlasting smell of gunpowder and war-paint. It evidently wants peace, or if war, a mere war of words. It says, beginning with a sentiment beautiful as new: "The pen is mightier than the sword. The pen, reinforced by the newspaper press, is mightier than swords, pistols, loaded canes, fasts and boots. It decides the fate of personal encounters which these left unsettled. It is an appeal beyond that which used to be called the last reason. It snatches victory from the jaws of defeat. It rescues honor where all seemed lost. It retains its appetite for fighting when the stomach has had a surfeit. It never surrenders. It is always brave and always victorions. With it the under dog wins, the lesser man prevails, he whose bodily presence is weak becomes formidable, and he who declines an interview with his antagonist demonstrates that it was purely from sparing mercy." There is the case, for instance, of the Rev. Maxwall P. Gaddes, late of Cincinnati, now of Brooklyn, N. Remedy of the Age

EDWARD WILDER'S PANOUS STONAUS TYPERS certainly cures Dyspepsia, Liver complaint, Indigestion in all its forms, nt Fever, Fever and Ague, and Flux. Cures costiveness, proves an invig-orantol a mild and delightful character for delicate females; acts as an alterative and tonic for family purposes; recuperates the wasted and debilitated frame, strengthens the appetite, and improves the digastive forces; it is unlike all other bitters, its basis being pure old Boarbon or coppar-listilled Whisky, while the body of all irval preparations is common raw Whisky or Alcohol, which is inthe highest degree deleterious to the system. This fact has of itself strongly commended it to the con-fidence of the robble and its medianes. fidence of the public, and its usefulness has been attested by the unsolicited certificates of leading men in the medical profession and the holy ministry.

AVOID CONSUMPTION.

No enemy of the human race is more to e dreaded, and is more insidious in its percaches, than that too fatal and gener-lly prevalent arch-destroyer of health and ess of myriads—"Consumption in stly form." The duty of all is to and against its first advances. This may done by the timely use of Enwand ILDER'S CONFOUND EXTRACT OF WILD nst its first adva CHERRY, a preparation especially recommended as affording certain relief for all Palmonary Complaints. Before it Coughs, Colds, and Catarrhe rapidly disappear. It affords prompt and decided comfort in cases of Bronchitis, Laryngitis, and Asthcases of Bronchitis, Laryngitis, and Asth-ma or Phthisic. Likewise, it is of the use in relieving the difficult breath highest use in relieving the difficult breath-ing and distressing cough of those-afflicted with Consumption. In all cases of Pneu-monia or Winter Fever it is indispensable. It has no equal in taste, efficiency, and power, Wherever used, it has not only given present relief, but effected perma-pent cures.
